Crafting Legacy

Collection 00

Introducing our Npha Collection, a mesmerizing ensemble inspired by the ethereal movements of the sky. 00 Collection captures the very essence of nature's most captivating phenomena. Elevate your living space with this enchanting range of pieces, and immerse yourself in the timeless beauty and grace it bestows upon your home.

Npha collection draws profound inspiration from the timeless wisdom of Eastern philosophy and the art of mindful living.

Rooted in the essence of balance, harmony, and introspection, each piece in this collection reflects the interplay between nature and human experience through meticulously crafted designs and materials.

Npha encapsulates the exploration of something in between, the tangible and intangible; soft & harsh, light & dark, smooth & rough, past & present. It's the interconnectedness of all things.

This collection serves as a tangible reminder to embrace the present moment, find beauty in simplicity, and embark on a journey of self-discovery.

Just as Eastern philosophy encourages the alignment of mind, body, and spirit, the Npha collection aspires to intertwine elegance with enlightenment, allowing individuals to adorn themselves with not just objects, but with profound meaning and cultural reverence.

The Exploration of crafting through eastern philosophy and the integration of modern living.

Designed by Tarith Thaiyanont

A visual melody that resonates with the soul.

Kantok

W60 x D60 X H30 cm.

Nphā Sculpture

W35 x D45 X H145 cm.

Bandai

W35 x D45 X H140 cm.

Nphā - #00

W48 x D48 X H76 cm.

Our design are always inspired by the movement of nature.

The collection seek to capture the inherent grace and fluidity that can be found in the organic rhythms of the natural world. By embracing the beauty and dynamism of nature, it evokes a sense of serenity, vitality, and connection to the ever - changing world around us.

A small, stylized signature or logo in the bottom right corner, consisting of a few thin, dark lines that form a unique, abstract shape.

The Cabinetmaker working on his initial stage of crafting the frame.

Black

02 / Frame & Structure

Oak

Ash

03 / Texture

Smooth Grain

Natural Grain

Wood is a living material, subject to natural variations that result in diverse patterns and grains. These variations are beyond our control, and we do not alter or manipulate the wood patterns to conform to specific designs. We embrace the organic beauty that arises from the natural processes that shape wood over time.

04 / Colour

05 / Finishing

Water-based

Oil

- Water-based Solvent: Resistance, and protection against water and chemicals with applied coating for great durability & clarity and ability to maintain the natural color of wood.

- Oil-based Solvent: Oil-based finishes tend to have a warmer and richer appearance, enhancing the natural color and grain of wood. They can deepen the color and create a more traditional look.

Every piece is designed to withstand
the test of time through generations.

Design and Craftsmanship:

Regulatory Compliance: Our designs respect regulations governing wood species, treatments, and finishes, ensuring legal adherence in every product.

Artisanal Excellence: We uphold the highest craftsmanship standards, combining traditional techniques with modern practices to create lasting and captivating products.

Sourcing and Sustainability:

Certification Standards: All wood materials must adhere to recognized certifications, such as FSC or PEFC, ensuring responsible sourcing and environmentally conscious practices.

User Safety:

Stability and Durability: Our products are designed to adhere to safety standards, emphasizing stability, weight capacity, and long-term durability.

Finishing Materials: We use finishes and coatings that meet safety and environmental regulations, maintaining indoor air quality standards.

Waste Management and Sustainability:

Waste Reduction: We prioritize waste reduction through efficient material usage and proper disposal practices.

Recycling Commitment: Our products are designed to consider end-of-life scenarios, encouraging recycling and responsible waste management.
